OVERSEAS SHIPHOLDING GROUP REPORTS FOURTH QUARTER AND FULL YEAR 2019 RESULTS

Tampa, FL – March 13, 2020 – Overseas Shipholding Group, Inc. (NYSE: OSG) (the “Company” or “OSG”), a provider of energy transportation services for crude oil and petroleum products in the U.S. Flag markets, today reported results for the fourth quarter and full year 2019.

Highlights

- Net income for the fourth quarter was \$11.0 million, or \$0.12 per diluted share, compared with net loss of \$5.2 million, or \$(0.05) per diluted share, for the fourth quarter 2018.
- Net income for the full year 2019 was \$8.7 million, or \$0.10 per diluted share, compared with \$13.5 million, or \$0.15 per diluted share for the full year 2018.
- Shipping revenues for the fourth quarter 2019 were \$98.4 million, up 10.3% compared with the fourth quarter 2018. Shipping revenues for the full year 2019 were \$355.5 million, down 2.9% compared with the full year 2018.
- Time charter equivalent (TCE) revenues^(A), a non-GAAP measure, for the fourth quarter and full year 2019 were \$93.8 million and \$335.1 million, up 17.3% and 2.6%, respectively, compared with the same periods in 2018.
- Fourth quarter and full year 2019 Adjusted EBITDA^(B), a non-GAAP measure, were \$33.7 million and \$91.6 million, up 45.8% and 5.4%, respectively, from \$23.1 million and \$87.0 million in the same periods in 2018.
- Total cash^(C) was \$41.7 million as of December 31, 2019.
- On December 11, 2019, we extended the terms on four of our bareboat charters ending December 2020 for additional three-year periods to December 2023.
- On March 12, 2020, subsidiaries of the Company completed the purchase of three U.S.-flagged crude oil carrier vessels, the *Alaskan Explorer*, *Alaskan Legend*, and *Alaskan Navigator* from BP Oil Shipping Company USA and BP AMI Leasing Inc. (BP) and have entered into a bareboat charter with BP for a fourth vessel, the *Alaskan Frontier*. In connection with these transactions, OSG also completed the acquisition of Alaska Tanker Company LLC (ATC), the operator of the vessels, making ATC a wholly owned subsidiary of OSG.

Mr. Sam Norton, President and CEO, stated, “We are extremely pleased with the results for the fourth quarter of last year. Revenue, EBITDA and earnings all came in at levels that portend continued progress in fulfilling the promise of our business strategy. For some time, we have been expressing confidence that the mix of our revenue streams has positioned OSG to generate stable revenues from our niche businesses while capturing the upside of the ongoing market recovery. The emerging strength of our conventional tanker earnings contribution is now evident. Combined with the expectation of continued stability from our other revenue streams, we have reason to believe that the long-anticipated return to sustained profitability is now at hand.”

Mr. Norton added, “Looking forward, the acquisition of Alaska Tanker Company and the three large crude oil tankers operated by that company will have a profoundly positive impact on our 2020 results. With the transaction having been completed yesterday, we now expect an incremental EBITDA contribution of \$15mm over the balance of this year, and more than \$20mm for the first full year of operations in 2021. These transactions allow us to build on our strong Jones Act franchise and present an exciting opportunity for OSG - one that we are looking forward to delivering on.”

A, B, C Reconciliations of these non-GAAP financial measures are included in the financial tables attached to this press release starting on Page 8.

Fourth Quarter 2019 Results

Shipping revenues were \$98.4 million for the quarter, up 10.3% compared with the fourth quarter of 2018. TCE revenues for the fourth quarter of 2019 were \$93.8 million, an increase of \$13.9 million, or 17.3%, compared with the fourth quarter of 2018, primarily due to an increase in average daily rates earned and decreased spot market exposure.

Operating income for the fourth quarter of 2019 was \$18.7 million compared to operating income of \$7.4 million in the fourth quarter of 2018.

Net income for the fourth quarter was \$11.0 million, or \$0.12 per diluted share, compared with net loss of \$5.2 million, or \$(0.05) per diluted share, for the fourth quarter 2018.

Adjusted EBITDA was \$33.7 million for the quarter, an increase of \$10.6 million compared with the fourth quarter of 2018, driven primarily by the increase in TCE revenues.

Full Year 2019 Results

Shipping revenues were \$355.5 million for the full year 2019, down 2.9% compared with the full year 2018. TCE revenues for the full year 2019 were \$335.1 million, an increase of \$8.4 million, or 2.6%, compared with the full year 2017. The decrease in shipping revenues primarily resulted from three fewer vessels in operation during most of 2019 compared to 2018. The increase in TCE revenues primarily resulted from an increase in average daily rates earned and decreased spot market exposure.

Operating income for the full year 2019 was \$33.4 million compared to operating income of \$27.4 million for the full year 2018.

Net income for the full year 2019 was \$8.7 million, or \$0.10 per diluted share, compared with net income of \$13.5 million, or \$0.15 per diluted share, for the full year 2018. The decrease was due to the recognition of \$21.7 million of previously deferred tax benefits upon completion of an Internal Revenue Service examination in the third quarter of 2018.

Adjusted EBITDA was \$91.6 million for the full year 2019, an increase of \$4.7 million compared with the full year 2018, driven primarily by the increase in TCE revenues.

Reconciliation to Non-GAAP Financial Information

The Company believes that, in addition to conventional measures prepared in accordance with GAAP, the following non-GAAP measures provide certain investors with additional information that will better enable them to evaluate the Company's performance. Accordingly, these non-GAAP measures are intended to provide supplemental information, and should not be considered in isolation or as a substitute for measures of performance prepared with GAAP.

(A) Time Charter Equivalent (TCE) Revenues

Consistent with general practice in the shipping industry, the Company uses TCE revenues, which represents shipping revenues less voyage expenses, as a measure to compare revenue generated from a voyage charter to revenue generated from a time charter. TCE revenues, a non-GAAP measure, provides additional meaningful information in conjunction with shipping revenues, the most directly comparable GAAP measure, because it assists Company management in making decisions regarding the deployment and use of its vessels and in evaluating their financial performance. Reconciliation of TCE revenues of the segments to shipping revenues as reported in the consolidated statements of operations follows:

(\$ in thousands)	Three Months Ended December 31,		Years Ended December 31,	
	2019	2018	2019	2018
TCE revenues	\$ 93,773	\$ 79,909	\$ 335,133	\$ 326,707
Add: Voyage Expenses	4,652	9,321	20,414	39,456
Shipping revenues	\$ 98,425	\$ 89,230	\$ 355,547	\$ 366,163

Vessel Operating Contribution

Vessel operating contribution, a non-GAAP measure, is TCE revenues minus vessel expenses and charter hire expenses.

Our "niche market activities", which include Delaware Bay lightering, MSP vessels and shuttle tankers, continue to provide a stable operating platform underlying our total US Flag operations. These vessels' operations are insulated from the forces affecting the broader Jones Act market.

The following table sets forth the contribution of our vessels:

(\$ in thousands)	Years Ended December 31,	
	2019	2018
Niche Market Activities	\$ 88,438	\$ 92,163
Jones Act Handysize Tankers	12,902	(4,238)
ATBs	8,816	12,476
Vessel Operating Contribution	110,156	100,401
Depreciation and amortization	52,499	50,512
General and administrative	23,399	26,880
Bad debt expense	4,300	—
Loss/(gain) on disposal of vessels and other property, including impairments, net	106	(877)
Income from vessel operations	\$ 29,852	\$ 23,886

(B) EBITDA and Adjusted EBITDA

EBITDA represents net income/(loss) before interest expense, income taxes and depreciation and amortization expense. Adjusted EBITDA consists of EBITDA adjusted to exclude amortization classified in charter hire expenses, interest expense classified in charter hire expenses, loss/(gain) on disposal of vessels and other property, including impairments, net, non-cash stock based compensation expense and loss on repurchases and extinguishment of debt and the impact of other items that we do not consider indicative of our ongoing operating performance. EBITDA and Adjusted EBITDA do not represent, and should not be a substitute for, net income/(loss) or cash flows from operations as determined in accordance with GAAP. Some of the limitations are: (i) EBITDA and Adjusted EBITDA do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments; (ii) EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs; and (iii) EBITDA and Adjusted EBITDA do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt. While EBITDA and Adjusted EBITDA are frequently used as a measure of operating results and performance, neither of them is necessarily comparable to other similarly titled captions of other companies due to differences in methods of calculation. The following table reconciles net income/(loss) as reflected in the consolidated statements of operations, to EBITDA and Adjusted EBITDA.
